JOSE RIZAL UNIVERSITY

80 Shaw Blvd., Mandaluyong City

January 8, 2026

Mr. Kensly Jenine V. Ligon
Education Technology Solutions Specialist
Rakso Computer Technology, Inc.
Makati City

Dear Mr. Ligon,

Greetings of peace from Jose Rizal University!

As part of the university and the College of Computer Studies and Engineering's effort to further enhance the skills and potential of its students to land paramount careers, our curriculum requires On-the-Job Training (OJT) / Internship for exposure to actual working conditions in a reputable firm. Your company is included in our selective and preferred listing as a desirable business concern that can provide our students the invaluable work exposure. Listed below are the required internship hours for the following programs:

Program	Required Internship Hours
Bachelor of Science in Information Technology (BSIT), BSIT major in Business Analytics (BSIT-BA), and BSIT major in Animation and Gaming Development (BSIT-AGD)	486 hours
Bachelor of Science in Entertainment and Multimedia Computing, specializing in Digital Animation (EMC-DAT) and Game Development (EMC-GAD)	486 hours
Bachelor of Science in Computer Engineering (BSCPE)	240 hours
Bachelor of Science in Electronics Engineering (BSECE)	240 hours

Would it be possible for your company to accept the following graduating students from Jose Rizal University, for training purposes, subject to your policies, rules, and regulations?

1. Florenz Jay Francisco
2. Raven Jay Gutierrez
3. Rhynne Charz Villas

We wish to emphasize that the successful completion of the work requirements by the trainee shall in no way be considered a commitment by your organization to subsequent employment.

Also, as per the new CHED Memorandum Order 16 Series of 2022 from the Commission on Higher Education, we will abide with the guidelines as stipulated in the **Updates on Onsite Learning in Higher Education Section 3.4 and 3.5** of the **Implementing Guidelines** stating that ***"Laboratory/Shop courses along with On-the-Job Training (OJT) and apprenticeship programs shall from hereon be conducted primarily through onsite learning experiences. In cases where partner host training establishments have integrated emerging remote work modalities, including online options in the OJT and apprenticeship programs, the equivalent hours shall be included in reckoning the total training hours".*** In compliance with this advisory, all internships shall be done in full onsite training, or hybrid training with onsite and offsite provisions, or in distance training with onsite and offsite provisions.

If possible, the student can begin as early as January 5, 2026, once your recruitment process is complete and the pre-deployment requirements are submitted on our side. Please update us on the status of the student's application and if you have accepted her for your internship, so she can start once she finishes the pre-deployment requirements, especially the Memorandum of Agreement and Internship Agreement.

During the internship, we ask your company to sign the student's weekly accomplishment reports and any other required documents for their internship. Additionally, we expect to receive a training certificate upon completion of the required hours and a filled-out evaluation form of the student at the end of the training period.

If you have further questions and other concerns in the student internship program, you can contact us on the JRU trunkline or email us at our respective email addresses. We can also set a schedule for a virtual MS Teams meeting if you want.

Thank you. Keep safe. Happy new Year!

Very truly yours,

JYR MARIE V. REYES
